1. Agreement to Sell and Purchase Energy. This is an agreement between (American Power & Gas LLC) ("AP&G"), an independent energy services company, and the undersigned customer ("Customer") under which Customer shall initiate electricity service and begin enrollment with AP&G (the "Agreement"). Subject to the terms and conditions of this Agreement, AP&G agrees to sell and deliver, and Customer agrees to purchase and accept the quantity of electricity, as estimated by AP&G, necessary to meet Customer's requirements based upon consumption data obtained by AP&G or the delivery schedule of the Local Distribution Utility (the "LDC"). AP&G is not affiliated with and does not represent the LDC. The amount of electricity supplied under this Agreement is subject to change based upon data reflecting Customer's consumption obtained by AP&G or the LDC's delivery schedule. The LDC will continue to deliver the electricity supplied by AP&G.

2. Term. For Variable Rate service this Agreement shall commence as of the date Customer's notice regarding the change of Customer's provider to AP&G is deemed effective by the LDC, and shall continue for 48 months thereafter (the "Initial Term"). Unless otherwise agreed to upon completion of the Initial Term, this Agreement will renew on a variable rate methodology continuing until terminated by either party with no change to the remaining terms (the "Renewal Term"). Either party may cancel or terminate this Agreement by providing 30 days' advance written notice of termination to the other party.

3. Pricing, Billing, and Termination. Unless otherwise agreed to in writing, the price for all electricity sold under this Agreement shall be a variable price which is set solely by AP&G at its discretion which shall each month reflect the cost of electricity obtained from all sources (including energy, capacity, settlement, ancillaries), related transmission and distribution charges and other market-related factors, plus applicable taxes (excluding state and local sales tax), fees, charges or other assessments and (ESCO)'s costs, expenses and margins. AP&G may change its margins substantially each month. If there is a material adverse change in the business or financial condition of customer (as determined by AP&G at its discretion) or if customer fails to meet its obligations under this Agreement or pay or post any required security deposit, then, in addition to any other remedies that it may have, AP&G may terminate this Agreement upon 30 days' written notice to customer. AP&G will invoice Customer monthly for electricity supplied under this Agreement, as measured by the LDC. Customer will receive a single bill for both commodity costs (provided by AP&G) and delivery costs (provided by your utility) from your local utility company/LDC. Your LDC will also determine your billing intervals and any late payment fees. As applicable, the LDC will handle your budget billing service. AP&G may assign and sell Customer accounts receivable to the LDC.

Customer payments remitted in response to a consolidated bill shall be pro-rated (when so required) in accordance with procedures adopted by the New York State Department of Public Service (the "DPS"). In the event of failure to remit payment when due by a residential customer, AP&G may terminate commodity service and seek suspension of distribution service in conformance with the Home Energy Fair Practices Act ("HEFPA").

4. Renewable Energy Product. Electric customers are guaranteed that 50% of your electricity usage is matched by the generation of energy from renewable resources by retiring renewable energy certificates (RECs). RECs represent the environmental attributes associated with the applicable amount of renewable

energy generation from various renewable sources that comply with the appropriate locational and delivery requirements. RECs will be purchased and retired to satisfy the percentage of renewable generation guaranteed by this agreement. The renewable mix provided under this agreement must be at least 50% greater than the applicable Renewable Energy Standard (RES) obligation for the current year. In order to satisfy the terms of this contract, RECs must be purchased from eligible renewable generators through NYGATS or by purchasing eligible RECs from NYSERDA or by procuring RECs from eligible renewable generators through bilateral contracts or by entering into bundled energy and REC purchase agreements with eligible renewable generators or by making Alternative Compliance Payments to NYSERDA.

Upgrade Option: Customer may opt to upgrade from 50% to 100% renewable energy sources. The price for the additional 50% renewable energy will be comprised of the AP&G varying price plus three (3) cents per kilowatt-hour delivered. Customer can cancel the 50% upgrade option at any time by calling AP&G at 1-800-205-7491. The requested drop of the additional 50% renewable energy sourced supply will be processed immediately by AP&G, and will become effective on the soonest date your utility's bill-processing system allows.

5. Assignment. Customer may not assign its interests in and delegate its obligations under this Agreement without the express written consent of AP&G.
