TERMS & CONDITIONS

1. Agreement to Sell and Purchase Energy. This is an agreement between American Power & Gas LLC (“AP&G”), a competitive retail electric services (CRES) provider, and the undersigned customer (“Customer”) under which Customer shall initiate electricity service and begin enrollment with AP&G (the “Agreement”). Subject to the terms and conditions of this Agreement, AP&G agrees to sell and deliver, and Customer agrees to purchase and accept the quantity of electricity, as estimated by AP&G, necessary to meet Customer’s requirements based upon consumption data obtained by AP&G from the delivery schedule of your local electric distribution company “EDU”. There is no deposit required. AP&G is not affiliated with and does not represent the EDU. The EDU may charge a fee to switch. The amount of electricity supplied under this Agreement is subject to change based upon data reflecting Customer’s consumption obtained by AP&G from the EDU’s delivery schedule. The EDU will continue to deliver the electricity supplied by AP&G.

2. Term. This Agreement shall commence as of the date the change of Customer’s provider to AP&G with the next available meter reading is deemed effective by the EDU, and shall continue for 12 months thereafter (the “Initial Term”). **Unless otherwise agreed to, upon completion of the Initial Term, this Agreement will renew to a variable rate methodology and continue until terminated by either party which does not require the customer’s affirmative consent.** Either party may cancel or terminate this Agreement by providing 15 days advance notice of termination to the other party. If Customer switches back to the EDU, they may or may not be served under the same rates, terms and conditions that apply to other customers serviced by the EDU.

3. Pricing and Billing. The price per kWh for all electricity sold to the customer during the term under this Agreement is as stated in the Price section of the disclosure box above. AP&G will invoice Customer monthly for electricity supplied under this Agreement, as measured by the EDU. Customer will receive a single bill for both commodity costs (provided by AP&G) and delivery costs (provided by your utility) from your local utility company/EDU. Your EDU will also determine your billing intervals and any late payment fees. AP&G does not offer a budget billing service at this time. AP&G may assign and sell Customer accounts receivable to the EDU.

3.1 Renewable Energy Product. Electric customers are guaranteed that 100% of your energy (or the minimum amount required by the state, whichever is higher) will be matched with electricity generated by deliverable renewable energy resources, including one or more of biomass, biogas, hydropower, solar energy, wind energy, or any other qualifying renewal resources.

3.2. Rebate. To qualify for the rebate program, you must register for the AP&G rebate program and agree to receive your rebate electronically. Registration can be done at www.goapg.com/rebate. For each account that has registered and remains enrolled with AP&G for 12 continuous months on this program, AP&G will calculate the average month's supply charges and send the customer a 25% rebate of that amount. You will not be entitled to any rebate in the event that you fail to maintain or provide accurate information to AP&G regarding your linked bank account, are subject to any bank account freeze or seizure such that your linked bank account is unable to receive a payment from AP&G, or AP&G is otherwise unable to make a payment to your linked bank account through no fault of AP&G's own.

4. Termination. In order for AP&G to supply fixed price electricity, long term supply arrangements are made with generators of electricity to meet the forecasted consumption of you, the customer. If the customer cancels/terminates this agreement for any reason, there is no early termination fee.
